MPS Shanghai, 2009

Background

Public safety is the cornerstone of national safety and social stability. A harmonious society comes from the construction of national public safety. To strengthen emergency management is very important both to national economic and social development and to people's lives and property. It is the core content of building a harmonious society and is also an important manifestation of the full implementation of governmental functions at all levels.

Shanghai is the economic center of China and in the leading position since reform and opening-up. As a cosmopolitan metropolis, the management system of disaster prevention and mitigation needs to be continuously improved and City's emergency response capability needs to be continuously upgraded. In addition, the upcoming 2010 World Expo will bring new challenges to the protection of public safety during major events of big cities.

Objectives

- To set up a platform for demonstration, to display the outstanding achievements and advanced technologies and equipments in the field of public safety and disaster prevention, mitigation and reduction at home and abroad;
- To set up a platform for academic exchange, to provide government decision-making consultation and scientific and technological support for "safe Shanghai, safe Expo";
- To set up a platform for communication, to introduce advanced technology, to accelerate scientific and technological innovation, to promote development of the industry.

Events

Shanghai International Metropolitan Public Safety Exhibition

- To display advanced products and technology of public safety and disaster prevention and mitigation at home and abroad;
- To promote disaster prevention course with the help of the exhibition platform;
- To promote international exchange in the field, to strengthen the integration of scientific research and manufacture and to provide better solutions for disaster reduction and public safety;
- To show outstanding achievements in disaster prevention, rescue, mitigation and public safety.

Shanghai International Metropolitan Public Safety Forum

To Enhance the Capability of Urban Disaster Reduction

Key-note speeches from:

- Chunqiang Shan (Deputy Director of China National Committee for Disaster Reduction)
